

Integrate Sales, Marketing, and Customer Service with Financials to Generate More Leads, Close More Sales, and Improve Customer Loyalty

Acumatica Customer Management includes customer relationship management (CRM) applications for managing leads, contacts, opportunities, and customer accounts.

IMPROVE SALES, MARKETING, AND CUSTOMER SERVICE

- **Get an ERP and CRM that work together** from marketing and sales to delivery and post-sales support, customer information stays up to date and accurate. Track client interactions, complaints, purchases, and more.
- **Leverage integrated content management.** Get a consolidated view of customer records in one database. Access all quotes, invoices, and support cases with a 360-degree view of customer data. Address data flows seamlessly between business account and contact forms, including different address info for contacts.
- **Gain visibility.** Get up-to-date sales data to help manage forecasts, quotas, and results on real-time reports and dashboards.
- **Be proactive.** Reduce response times and improve satisfaction with service management tools. Anticipate customer problems. Identify upsell opportunities. Automate reminders for callbacks, follow-ups, and requests.
- **Increase sales and marketing efficiency.** Streamline lead management and events with sales automation and workflows. Predefined, brand-consistent templates create emails for contacts, employees, and leads for automatic distribution. Leverage user-defined fields to create custom fields to search, find, and filter records. Get consistent naming conventions. Create and manage events on one screen with event side panel. Eliminate redundant records automatically.
- **Track marketing effectiveness.** Marketing automation tools manage leads, improve conversions, measure campaign performance, communicate with contacts, and link campaigns to profitability.
- **Improve employee engagement.** With Employee Case Management, users can submit, assign, and track employee assistance requests for onboarding, technical help, and other requests not related to sales leads or opportunities.

FOSTER COLLABORATION WITH CUSTOMER PORTAL

- **Provide customer self-service.** Give customers access to data on their interactions and enable customer activities online so they can track orders, manage support cases, check balances due and payments received.
- **Share information.** Provide customers with 24/7 access to key content, including marketing and educational materials, user guides, and FAQs.
- **Foster true team collaboration.** Unlimited server pricing allows you to include everybody in automated and integrated workflows to promote a team approach to customer management.
